About this project

My name is Pedro Ha. I've been living in JS-land and front-end for the last 6 years. I worked on large-scale websites like bn.com and cnbc.com. I taught adults at NYU and FIT, and children through Coderdojo and Nano Hacker Squad at Thoughtworks.

The bulk of the work for green screening is provided by the library *Seriously.js* by Brian Chirls.

https://github.com/brianchirls/Seriously.js

Green screening is dedicated to the loving memory of Susanita, Angelica and Michelle, who passed away in a car tragedy.
